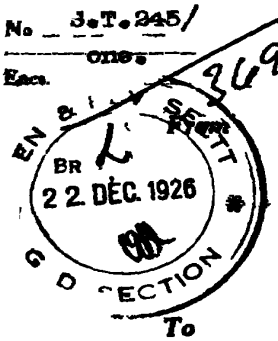
OFFICE OF THE AUDITOR

Mysore dated 30th December 192.



3691

M A SINGRACHAR, Esq, B.A

Auditor, Mysore Railways,

Mysore

To

The Secretary, to the Government of Mysore,
Local and Legislative Department,
Bangalore.

Sir,

2

With reference to your letter No 3941 of 16/12/26 regarding Imports and Exports into and from the several stations of the State, I have the honour to inform you that the Statistic for commodities as shown in the enclosed statement is maintained in this office.

2. I shall be glad if you will kindly send me early a copy of the Review of the Foreign Rail borne trade of the Mysore State for the year 1923-24 so that I may know the articles of Imports and Exports into the state shown in table IV of the Statistics appended to it.

3. To furnish the above information, records for 3 years are available in this office only in the case of foreign Inward invoices booked from all the connected foreign Railways to Mysore State. For the foreign outward invoices they have to be called for from the several connected Foreign Railways.

4. It is not possible to undertake this work in addition to current work unless additional help is given. To complete the work for a period of 3 years, 2 additional hands on Rs.30/- and one on Rs.25/- will be required. I expect it will take 2 months to finish it. If sanctioned, the work will be undertake

5. The statistics for the stations noted overleaf will have to be obtained from the Madras and Southern Mauratta

Railway Company.

I have the honour to be,
Sir,
Your most obedient servant,
Mahomed
Auditor.

Bangalore.

Sir,

With reference to Government Order No L 3156-64/M1 105-26-1 dated 13th November 1926, appointing a Committee to consider the feasibility of the abolition of Octroi in Municipalities and the tax that may be substituted in its place etc , I am directed to state that the Committee held its preliminary meeting on the 11th December 1926, when it was decided that -- statistics showing the quantities of the several kinds of --- articles (on which Octroi is levied) imported into and exported from the several municipalities specified by them, by rail and by road, the rate at which octroi is levied etc , may be collected and placed before the committee at its next meeting The Deputy Commissioners of Districts and the Auditor, Mysore Railways, were requested to furnish the statistics referred to above in respect of exports and imports by road and by rail respectively The Auditor, Mysore Railways, has now reported that it is not possible to undertake this work in addition to the current work, unless additional staff is given and has stated that 2 additional hands, one on Rs 30/- and one on Rs 25/- per mensem, -- may be required for a period of 2 months for compiling the -- statistics.

2 I am directed by the Chairman to request you to be so good as to obtain the early sanction of Government for the - - - entertainment of the 2 temporary hands, one on Rs.30/- and one on Rs.25/- per mensem, required by the Auditor and to communicate the same to that Officer for The figures available at

11

early date

3 The Auditor, has also stated that information regardi the marginally noted Railway Stations should be obtained from the Madras and Southern Maharatta Company Railway authorities Necessary information -- may be caused to be furnished by the said --- authorities in the matter.

Sir,

In forwarding herewith copy of letter No S T 245/3491 dated 20th December 1926 from the Auditor, Mysore Railways, B stating that statistics of Exports and imports for the stations mentioned in para 5 of the letter may be obtained from the M & S M Co, I am directed to request you to be so good as to state if the information can be collected by the Commerce Section of your Department and if so to request that the same may be collected and furnished to this office at a very early date It is understood that the Commerce Section keeps in touch with the M & S M Ry in regard to the rail borne statistics of trade

A copy of this office letter No L 3941 dated 16th December 1926 to the A. Auditor, Mysore Railways, stating the purpose for which the statistics are required and the details of the information wanted is enclosed for reference

Ref Lo S-26-12

Sir,

I have the honour to invite your kind reference to para 1 of my letter No. S.T.345/3491 dated 20-12-26 and its enclosure from which it will be seen that information on 17 commodities are reported to be available in this office. In your letter No. 3941 dated 16-12-26 information was particularly required as regards coffee, Tea, Aluminium Iron & Paper. It was therefore thought that information as regards the 22 articles were only required and to collect which it was suggested that two hands one on Rs.30/- and the other on Rs.25/- may be sanctioned. From a reference to Table IV of the statistics appended to the Review of the Foreign Railborne trade for 23-24, a copy of which was subsequently received from you, it is observed that there are 186 articles of Imports & Exports. If information on all these articles are to be furnished for a period of 3 years it will involve an enormous labour which the temporary establishment now sanctioned cannot cope within the period allowed. I request you therefore to kindly let me know early if information on the 22 articles will not be enough. But if information on all the 186 articles is required an additional establishment will be necessary, which will be intimated on hearing from you.

The work has already been taken on hand from the 16th Feby. last and statistics for the 22 articles are now being collected.

17

2 I have also to mention that in respect of the four Joint Stations noted in the margin this office can furnish figures relating only to Local Traffic i.e. traffic to and from the lines worked by the State, and statistics relating to traffic to and from the lines worked by the M & S.M.Railway, Co., will have to be obtained by Government from that Railway Audit Office through the Railway Secretariat.

1.Bangalore
2.Bowringpet
3.Arsikere
4.Birur.

3. As already intimated in my letter of 20th Dec.26 above referred to, the entire statistics relating to the following stations which are situated on lines worked by M & S M Ry will also have to be obtained from that Railway Audit Office

I have the honour to be,

Sir,

Your most obedient servant,

M a Swaminathan

Auditor.

Re: Mysore Railborne Statistics.

Your No: M. 2779/08. of 23-2-27.

&&&&&

I have the honour to inform you that the statistics showing the imports into, and the exports from each of the stations mentioned in your above can be furnished under 185 Sub-heads for the years 1923-24, 1924-25 and 1925-26. The estimated cost of furnishing these particulars will be ₹ 100/= and the work will take about one month.

I shall be glad if you will inform me whether you are prepared to meet the cost.

There will be no saving in labour by requiring the figure under 31 major heads only.

Certain Statistical information required by the Octroi Committee.

Sir,

Adverting to correspondence ending with your letter No.L. 7051/ M.L. 105-26-15 of 6th April 1927 in regard to the compilation of certain statistics of exports and imports from some of the Mysore Railways Stations, I have the honor to forward herewith two statements, Statement No. 1 giving complete information for the years 1924,1925 and 1926 in respect of the 5 articles namely Coffee, Tea, Iron and Aluminum specially referred to in letter No. L 3941 of 16th December 1926 from the Secretary, Local and Legislative Department, and Statement No. 2 showing the exports and imports of the remairing 17 commodities for the year 1924 only.

2. In this connection I may state that the work of collecting the Statistics for the 22 articles was taken up on 16th Feb 27, as already reported, by the two temporary clerks specially sanctioned for the purpose. Though they have been working at it strenuously all these days under the direct supervision of - - Statistics Superintendent, I am sorry they have not been able

to

to finish the work as expected within the period sanctioned. Collection of statistics on 17 commodities for one year 1924 took up nearly 2 months. As regards the remaining 5 commodities, as only inward figures were available in this office, the clerks had to be sent out to stations to collect the outward figures. As special stress was laid upon five articles in the letter of Secretary, Local and Legislative Department mentioned above, compilation of statistics in regard to them for all the three years were taken up first.

5. From the foregoing it will be seen that the task involved is a very laborious one and the progress made was fairly good considering that about 50,000 invoices per week had to be examined. If statistics for the other 17 commodities are required for the years 1925 and 1923 also, I think it will take about three months more. I request that sanction of Government may kindly be obtained for continuing the staff sanctioned for that period. But if however Government think that no furtner information is required, the staff entertained will be disbanded soon after intimation is received.

The favour of an early reply is solicited.

I have the honor to be,
Sir,
Your most obedient servant,

M A Lawrence

Auditor,
Mysore Railways.

OCTROI COMMITTEE.

Notes of discussion at the Meeting of the 17th December 1927.

ooo

The question was whether octroi should be abolished. In view of the many defects in the system the opinion was on the whole that if possible octroi should be abolished. Our Municipalities cannot however do without the income which they are now getting from octroi. A terminal tax may therefore be substituted. Such a tax is not altogether free from objection as, like octroi, it can also be avoided by booking goods to intermediate stations. But it has to be preferred to octroi as it is free from vexation to the owner of the goods, cost of collection and liability to corruption incidental to octroi. Terminal tax may therefore be tried in industrial centres on the railway line, that is, Municipalities in such places may be given the option of levying the terminal tax instead of octroi which they are now levying.

Just as in the case of octroi absolute necessaries of life should be left out from the list of articles subject to the tax. Small luxuries of the poor on which collection is difficult may be exempted. On the contrary such articles as iron used for building, duty should be

levied. For such articles as tobacco which are smuggled into cities, the best thing is to tax shops. The shops may be graded according as they sell foreign tobacco, local tobacco or inferior tobacco material and taxed according to class What is proposed is that the tax may be raised and the octroi duty now recovered on tobacco abolished Similar arrangements may be possible in the case of a few more articles petrol for example

A | A list of articles should be made for being recommended to the Municipalities for adoption The principles above enunciated for including or excluding articles should be kept in view in making this list For 12 Municipalities included in the note on the terminal tax, the income

B | ~~from~~ terminal tax should be levied on the articles so selected at rates in force in the Central Provinces may be calculated

In the Indian Taxation Enquiry Committee's ~~recommendations~~ report shop tax on turnover in places of octroi has been recommended This does not seem to be a convenient way of taxing as turnover is very difficult to ascertain.

C | The practice with regard to tobacco in the Civil & Military Station should be examined.

Instructions of Government may be obtained whether the views of the particular Municipalities on the proposals of the Committee may be obtained by the Committee and considered before ~~keeping~~ making a report to Government This might be desirable as the Committee can consider how to remedy difficulties ~~from~~ common to several Municipalities

With regard to some articles the difficulty is purely local In such cases the Committee may consider a solution without reference to the Municipality viz., timber in Mysore Municipality. A copy of the Civil & Military Station Administration Report should be obtained and sent to Mr Mahomed Usman

D

The Municipalities about which ~~they are calculating figures~~ income is to be calculated may be asked to furnish ~~opinion~~ any figures that may not be ready in the file regarding the income from octroi on articles on which it is proposed to levy terminal tax.

E

With regard to terminal tax it is necessary to remember that storage in premises within a short radius of the Municipality ~~and~~ as well as booking to inter-mediate stations should be made subject to tax.

Spices (excepting the spices taxed at 4 annas per maund on import)	1 anna 6 pies on import and 1 anna 3 pies on export.

At 2 annas per maund

Chemicals, class C. Paper, stationery, and books. Furniture and wooden articles. Piece-goods, cotton, tents, cotton rope, newar textile fabrics of allkinds, wearing apparel.	On import only.
Leather (country, common)	~~2 annas on import and 6 pies on export~~
Wool and wool yarn	2 annas on import and 9 pies on export.
Soap, candles, matches, tea, coffee, arrowroot, cornflour, wax, country confectionery, sago, honey, ramdana	2 annas on import and 1 anna 3 pies on export.
Tinware, brassware, coppersare, bell-metal-ware, and hardware of all kinds	2 annas on import and 1 anna 3 pies on export.
All metals but iron, aluminium (unmanufactured)	2 annas on import, and 1 anna on export
Glass and glassware of all kinds, china and crockery.	2 annas ~~on import and 6 pies on export~~ on import only

At 2 annas 6 pies per maund.

Ghee and butter.	2 annas 6 pies on import and 9 pies on export

At 3 annas per maund.

Hide and skins	On export only
Piece-goods, woollen and union Imported leather and leather goods Dyes and paint	On import only
Aluminium and aluminium-ware	3 annas on import and 1 anna on export

At 4 annas per maund.

Chemicals, classes A and D Other drugs, narcotic and imported Piece-goods (silk)	On import only

Groceries and dried fruits and the following spices -

Cardamoms, Jaipaal, Mutri, assafoetida, [illegible]	[illegible] on import and 1 [illegible] 9 pies [illegible]

	At 8 annas per maund.	
Haberdashery, millinery, drapery, waterproof goods, tinsel, and lace. Fancy goods. Cigars and cigarettes (excluding bidis) and imported tobacco		On import only
[illegible]	At 1 rupee per maund	
Perfumery and essential oils		On Import only

145

[illegible]

[illegible] This is an impost on goods levied by the municipal bodies at a uniform percentage rate irrespective of the value of consignments. It differs from octroi in that (1) the rates are very low and (2) the system of refunds is practically non-existent. On consignments by road, it takes the form of a toll and is collected at the check posts. In the case of rail-borne traffic, it is collected by the Railway Co on an addition to Railway freights.

[illegible] A. The tax has been in existence in the Campore municipality since 1890. In 1928, the question of financing the water supply project had to be solved and the rate-payers were averse to direct taxation. The municipality had therefore to find recourse to octroi. That tax was not to the people and proved quite unpopular as soon as it was introduced. Trade was also affected to a considerable extent. The Chamber of Commerce therefore got themselves to devise [illegible] octroi and suggested several alternatives, two of which was the introduction of terminal tax and octroi. The Municipal Council adopted this suggestion which is reported to have since proved a complete success.

B. In Campore, the tax is levied on import as well as export in addition to octroi on [illegible] collected the tax on an addition to Railway freights and charge 3 per cent commission. [illegible] as an agent of refund upon [illegible] Municipal [illegible]

exempted:-

(a) Goods rebooked without breaking bulk and

(b) Luggage of passengers and parcels up to a certain weight.

4. For purposes of collection the City and the Civil and Military Station authorities had formed a joint Committee with full powers of control. The gross proceeds are in the first instance deposited in the Bank of Bengal to the credit of the Joint Committee by whom the net proceeds, after deducting the cost of collection, is apportioned between the two bodies in proportion of population of the two areas.

Taxation Committee's recommendation.

5. In 1908, the Government of the United Provinces appointed a Committee to investigate the merits and demerits of the Octroi administration and to suggest remedies. That Committee has strongly recommended the substitution of the terminal tax for Octroi in all centres of large trade. In its opinion, wherever indirect taxation is necessary that tax should take the form of a terminal tax rather than of Octroi with refunds. The Committee feels convinced that the serious drawbacks of the Octroi administration are absent in the system of terminal tax. The advantages of its recommendation are stated to be the following:-

(1) It is light in its incidence.

(2) Very easily and cheaply collected.

(3) It is not unpopular as Octroi.

(4) The rates being moderate often, there always connected with assessment, no centres in the Octroi administration, (illegible) almost absent.

(5) No delay, the operation and the trade (illegible) also no (illegible) (illegible) (illegible)

of consignments arriving by rail.

(6) It is as productive as Octroi and the clerical work involved is comparatively very little.

(7) Opportunities for fraud and evasion of duty are reduced to a minimum.

4. The one important objection might be against this system of taxation is that it operates as a transit duty even as Octroi. The justification/on the following considerations:-

(a) The incidence is very light, lighter than that would be on through traffic under Octroi.

(b) Any proposed system of refund is inconsistent with the idea an Octroi Duties, in the case of goods for ultimate export, the following circumstances remove the objection:-

I. In the case of raw material imported for early export without consideration, the facilities for storage and the protection afforded by the municipal administration justify the payment of municipal dues.

II. If raw material is transformed before it leaves the municipal limits, the original import duty becomes a negligible factor in its value.

III. The impossibility of accurately adjusting the refund on manufactured articles to the duty on raw materials would strongly force the local bodies into substituting advalorem rates for maunds, i.e., Octroi would be re-established.

5. In Mysore, unlike in Travancore, Octroi is not a new tax. It is at least as old as the municipalities themselves and forms the mainstay of municipal finances. Besides, the elasticity of the taxable capacity and the ease of collection are two of the long

[illegible] for this is a subject [illegible] for [illegible] in Mysore.

[illegible] the [illegible] [illegible]. [illegible] [illegible] [illegible]

[illegible] action necessary for the introduction of the system of terminal taxation.

[illegible] municipality will have to introduce [illegible] either. This can best [illegible].

11. As regards the abolition of octroi, the municipalities cannot be asked to adopt this all at once. As pointed out already, that seems to be impossible unless and until they can find a suitable substitute which will be financially sound and acceptable to rate payers.

The Municipal Councils concerned should therefore collect the following information from the Railways:-

(1) Rail-borne traffic for the previous 5 years on imports under the different categories adopted by the Railway.

(2) do. in respect of exports.

(3) Whether the Railway are willing to undertake the collection of the tax on rail borne-traffic as an additional to railway freight, and if so, the commission they would charge for the work.

12. It may be of interest to note here the recent resolution of the Government of India in this report. The Government of India while adhering to the principle that municipal taxation should not operate, so far as can be avoided, as a transit duty on through trade, are prepared to concede that a light terminal tax with no refunds may in practice prove less burdensome to through trade than the octroi system as hitherto administered in British India, provided that the following conditions are observed:-

(a) that the terminal tax, wherever possible should be substantially lower in its rates than octroi which it replaces,

(b) that it should be limited to ... where there are special grounds for ..., which must be adequately demonstrated,

(c) that it should be regarded as ... the transition to a system in which ... tion will form an increasingly important ... and not as an elastic means of progressively ... keeping the resources of Municipalities up ... natural development due to increase of traffic, and

(d) that it should not be adjusted with the primary object of compensating municipalities for the loss of Octroi.

13. The Municipal Councils may take up the question and investigate the matter in all its details to enable them to arrive at a decision whether to retain Octroi or its replace it by a system of terminal tax acceptable to rate payers.

The following proposition was brought forward at the Representative Assembly Session of 1918, namely:-

"Rail gates and Octroi stations may be connected with in Municipal towns which are Railway stations and duty levied only on dutiable articles (both exports and imports) borne by rail"

The Comptroller then was of opinion that the proposal was ... of favourable consideration, that in several important towns in ... India octroi was being replaced by a terminal tax. The above representation was considered with the above note and it was ordered that the question may be taken up after final orders are passed on the resolutions of the Local ... Government ... reference have been sold them.

In para 11 of Govt ...

[illegible] Order on the local [illegible] Government observed that there were [illegible] to show whether the adoption of the terminal tax on goods in municipalities situated near Railway Areas would be financially better than Octroi and that it does not seem possible to go further than with respect to the abolition of octroi than the policy laid down in their Government Order of 30th March 1918.

The attention of the Presidents of the 3 City Municipalities was drawn in November 1917 in regard to para 18 of the Order of 1918 and they were asked to submit definite recommendations on the question of modifying the existing system of Municipal taxation with a view to improve the revenue. The question of substitution of the terminal tax for octroi was also specifically referred to them in March 1917. In the letter to the Bangalore City Municipal Council suggestions were made in respect of the question by a Joint Council of the City and Civil and Military Station Municipal Councillors with reference to the following points:-

(1) Whether the terminal tax will prove financially sound,

(2) Whether the legislation of the 2 Councils would permit of the formation of such a Committee of 3 Members for their administration of the terminal tax,

(3) How the tax collectors may be appointed and

(4) Whether the Railway authorities should undertake the collection without special legislation.

The President of the City Municipal Council Bangalore stated that [illegible] it was not in favour of the introduction of such a tax and that the question would have to be dropped until after the war. The President of

Mysore City Municipality Council stated that it was undesirable to effect any change in the existing -- system under the then unsettled state of trade and commerce owing to the Great European War.

The papers were then filed.

The question of the abolition of Octroi and substitution of it by a Terminal Tax was also considered at the Local Self Government Conference of 1923, vide., the Dewan's speech delivered on the occasion. The Conference passed the following -- resolution in the matter:-

"XXXVII Whatit is not desirable to abolish the levy of Octroi duties."

This was recorded in Government Order No. A 2134-38/21,79-24-3, dated the 10th September, 1924.
